Stolen Vehicle Tracking and Monitoring Services

The ultimate protection for your vehicle – with European coverage as standard*

Today's high value vehicles provide rich pickings for today's new breed of professional vehicle thieves who steal to order and are often shipped to other countries.

Improvements in vehicle security and advancements in telematics technology, including stolen vehicle tracking, have been at the forefront of reducing stolen vehicle numbers in the UK from over 300,000 to under 70,000 in recent years.

Vodafone tracking systems uses the latest GPS / GPRS / GSM technology, providing pinpoint accuracy and unparalleled service levels. Police liaison is conducted in local language through Vodafone Automotive's network of Secure Operating Centres across 49 countries globally.

Vodafone stolen vehicle tracking systems are installed covertly to your vehicle making it difficult for a thief to know that a tracking system is present.

All Vodafone stolen vehicle tracking systems are Thatcham accredited - which can reduce insurance premiums - and carry a 2 year warranty which is usually transferable to a replacement vehicle, enhancing the vehicle's residual value and protecting the owner's initial investment.

Choose the Vodafone Protect & Connect 6 system which detects unauthorised movement of a vehicle when the ignition is switched off (e.g. if the vehicle is towed away).

Or opt for our proactive top of the range Vodafone Protect & Connect 5 system with Remote Ignition Lock functionality, allowing Vodafone Automotive to safely immobilise a stolen vehicle with Police authorisation.

This proactive stolen vehicle tracking system automatically detects theft even when a thief has taken the vehicle keys

Web and mobile application

Vodafone Protect & Connect 6 and Vodafone Protect & Connect 5 are available with app and web functionality. Both are user friendly applications that gives owners the ability to obtain a pinpoint location for their vehicle(s) on demand, including the powerful key facility of setting a geofence zone. Receive an immediate SMS alert with the web function or an in app notification when using the My Connected Car App, should a vehicle leave the pre-set area.

Download the 'My Connected Car' app from either IOS or Android now to try our demo version.

Vodafone Automotive is the European market leader for Stolen Vehicle Tracking

The only approved tracking supplier to: Aston Martin, Audi, Bentley, Ferrari, Infiniti, Lamborghini, Maserati, McLaren, Mercedes-Benz Trucks, Nissan, Porsche, Renault, Seat, Škoda, Tesla, Volkswagen passenger cars and Volkswagen commercial vehicles.

Vodafone Automotive Insurance Recognition

Vodafone Protect & Connect 6 and Vodafone Protect & Connect 5 systems are Thatcham accredited and recognised by the majority of leading insurers. You may qualify for a discount on your insurance premium.

Countries Covered*

Albania, Austria, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, Canada*, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France (incl. Monaco), Germany (incl. Liechtenstein), Greece, Hungary, Ireland, Italy (incl. Vatican City, San Marino), Latvia, Lithuania, Luxembourg, Macedonia, Malaysia, Malta, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russia, Serbia, Singapore, Slovakia, Slovenia, South Africa, Spain (incl. Andorra, Gibraltar), Sweden, Switzerland, Turkey, Ukraine, United Kingdom and United States of America*.

*Countries not covered by Vodafone Automotive UK

Vodafone Protect & Connect 6

Vodafone Protect & Connect 6 offers stolen vehicle tracking with pan European coverage* as standard, and is recognised by major insurers thanks to Thatcham Category 6 (formerly Thatcham TQA) accreditation.

Key Features

Pinpoint GPS Tracking

24/7 Service

Recognised by major insurers

System transferable

International GSM & GPRS Coverage

Detailed theft history facilitates recovery

Automatic system health check

App & Web included

Europe wide coverage
(49 countries worldwide)

Thatcham CAT6 accredited

2 year warranty

Our standard Vodafone Protect & Connect 6 system delivers stolen vehicle tracking with the added security of generating:

Tow-Away Alert
When motion is detected with the ignition switched off (e.g. if the vehicle is towed away)

Tamper Alert
When the vehicle battery is disconnected or discharged, or the system wiring is cut

GSM Jamming Alert
When an attempt to jam the GSM signal is made

Vodafone Protect & Connect 5

Vodafone Protect & Connect 5 is the top of the range Thatcham Category 5 accredited system, incorporating all the benefits of Vodafone Protect & Connect 6 and the added protection of:

Automatic Driver Recognition
Drivers are issued with a unique pocket-sized Driver Card and on leaving the vehicle the system automatically arms itself. If the vehicle is moved without the Driver Card present, Vodafone Automotive's Secure Operating Centre is alerted instantly to a potential theft, even if the vehicle is taken using the vehicle's own key

Remote Ignition Lock
Enables the Police to authorise Vodafone Automotive to send an alert to the vehicle and prevent the engine being restarted once it comes to a standstill. This significantly increases the chance of both the vehicle and its contents being recovered undamaged, and can help avoid high speed police pursuit of suspect vehicles

My Connected Car App and Web

Installing a Vodafone Automotive stolen vehicle tracking system automatically gives you access to our mobile application and web. With My Connected Car, you can access and manage a number of your vehicle **security and safety** functions remotely. My Connected Car provides **easy access to vehicle information** such as real-time vehicle location, directions to the vehicle and geofence ability.

My Connected Car app features:

Live Vehicle Location

Including satellite Google maps viewing

Speed Alert

Set a specific speed limit and receive an in-app notification if you exceed that limit

Trip reports

See your latest and historical journeys including distance travelled as well as average and maximum speed

SOS button

direct to the Vodafone Automotive Secure Operating Centre

Car Finder Route (Driving and Walking)

Can't remember where you parked? Car finder shows you the quickest way to get back to your vehicle

Multiple vehicles

Up to 10 vehicles available in one account

Geofence

Set a Geofence zone and receive an in-app notification if vehicle enters or leaves that area

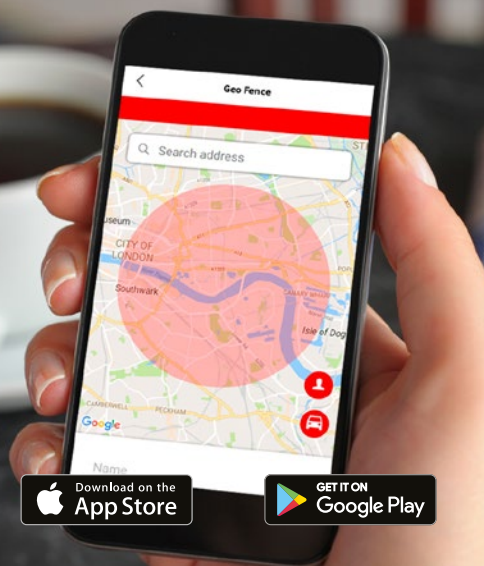

Self-Diagnosis

Perform your own system health check

Special modes

Simply activate Garage Mode or Transport Mode without the need to contact our customer service team

How to Access the 'My Connected Car' service

1

Fill out a registration form and send to our dedicated Vodafone Automotive customer service team

2

Install a Vodafone Automotive stolen vehicle tracking device

3
