Stolen Vehicle Solutions

International coverage with the latest GPS/GPRS/GSM technology

Solutions for **Motorhomes & Caravans**

Vodafone
Power to you

Protect your investment with Vodafone Automotive

Since the early 2000's vehicle thefts of motorhomes and caravans have seen a steady decline due to the growth in GPS and Stolen Vehicle Tracking technology. However, in 2015, the National Vehicle Crime Intelligence Service (NVCIS) reported a 20% increase in the amount of caravans stolen in the UK in comparison to 2014. This was the first time a significant rise in thefts had been reported for more than a decade, and highlights the need for the highest levels of security protection for motorhomes and caravans. Protect your motorhome with our Vodafone Protect & Connect systems, which utilise Vodafone Automotive's 40+ years experience in vehicle security and telematics to bring you the latest theft tracking and connected vehicle technology. Vodafone Vehicle Defence is our newest Stolen Vehicle Solution and gives you the ideal compact, cost-effective solution to recovering your caravan.

Affordable Security Protection for your Vehicle

Vodafone Automotive offer you affordable solutions with world leading technology. Using the latest GPS/GPRS/GSM technology we provide pinpoint accuracy when locating your vehicle. Our stolen vehicle solutions are installed covertly to your vehicle so thieves have no idea that they are present.

Class Leading Services for Recovery

Vodafone Automotive provides you with peace of mind security for your motorhome or caravan. As the European market leader for stolen vehicle recovery, Vodafone Automotive has built up a network of secure operating centres to be able to provide you with global recovery services, with local language police liaison.

For more information contact your Vodafone Automotive **Regional Sales Manager** or email sales-uk.telematics@vodafone.com
